

# California Strong

During the devastating and unprecedented LA fires,  
Fresenius Medical Care team members did what we do best:

**Come together as a team to care for our patients and each other.**

## In the Fire Zones

23  
centers

5,000+  
patients

312  
employees

## What We Accomplished Together

90%+

of in-center patient  
treatments were completed

0  
centers  
closed

100%

of home patients completed  
their treatments

97%

of team members  
reported to work

79%

of missed treatments  
were rescheduled

**And...** we opened our centers  
to patients from other providers  
in need of treatment

## THANK YOU!

#ProudToBeFME
